

Rugged GMR2 PLUS GMRS and FRS Two Way Handheld Radio with Removable Antenna

The GMR2 PLUS handheld radio keeps you connected to friends and family while on the go! With the included 22 channels, you have universal connection to all other GMRS radios; meaning you can talk to the other GMRS and FRS radios. The new and improved “Plus” model has a removable antenna allowing you to change out the stock antenna for a High Gain or stubby antenna.

The GMR2 PLUS has an optimized transmitter with tuned antenna providing long range performance. With the ability to transmit at a lower power, the GMR2 PLUS sends clear long range communications with longer battery life. The GMR2 handheld offers versatility and clear communications.

Features:

- Standard GMRS channels
- Rechargeable Lithium-Ion Battery with USB charge port
- Weather channels
- FM Radio
